...

Dante,

Chuck Zimmerman and/or Rich Matucci will be available to take you around the FMS on June 29th. They will plan to meet you at the Weed Heights office between 1p and 2p. If your plans change please let us know so we can coordinate.

Thanks,

-jack

Jack,

I will be in Yerington on Monday, June 29, and would like to inspect the fluid management system that afternoon. Can you check with the site O&M crew and see if they can take me around? I would estimate my arrival to be between 1p and 2p. I would particularly like to see the A,B,C ponds and see how much freeboard the A pond has, and at the Phase I pond see where you will be constructing the dam/weir and placing the tank. I would also like to see the fluid collection components around the Phase III HLPs. Thank you!

Dante Rodriguez
